PRESIDENT IS A BELIEVER IN OUR COUNTRY

Says We Should Not Destroy Our Industry to Build Commerce for Other Lands.

(By Associated Press) WASHINGTON, May 18.—President Harding today told the chamber of commerce of the United States that the American government "did not want American industry destroyed to build up commerce in some other land." The United States does not wish to hold aloof, he added, but "we must always be right at home" before we can go abroad on great problems. The president said he doubted if there had ever been a world war if America had commanded a merchant marine commensurate with the government's importance. Commerce had much to do with the bringing about of the world war and never once was it forgotten in the negotiations of peace, he added.

STAGE DOOR BEAUX DROPS FROM VIEW

(By Associated Press) LONDON, May 18.—(By Mail).—Stage door keepers of London theater say the stage door "beau" is extinct and has been replaced by a species of young men more aptly described by the American term "stage door Johnny."

The vanished "beau," according to the guardian of one London stage entrance, wore a large silk hat at an acute angle, an elegant cape over his evening clothes and waited, a bouquet in one hand, a be-ribboned box in the other, gold knobbed swagger stick under one arm, to greet a chorus girl and, with a graceful bow, to hand her into his private hansom cab.

Today, Jack doesn't do that. He sits in his automobile puffing a cigarette and when the other party appears he calls from the curb: "Come on, old girl; you've been a long time." The car starts with a jerk and the girl is hurled into a seat.
